

Amendments to the Claims:

This listing of claims will replace all prior versions and listings of claims in the application:

Listing of claims:

1. (Currently amended) A method to inhibit the growth of a tumor of the breast, lung, colon, kidney, bladder, head and neck, ovary, prostate, or brain that overexpresses epidermal growth factor receptor (EGFR)/HER- 1 in a human patient, which comprises treating said human patient with an effective amount of a combination of radiation and a nonradiolabeled biological molecule inhibitor of said EGFR/HER- 1, wherein the biological molecule inhibitor is a monoclonal antibody or a fragment ~~that comprises a hypervariable region thereof~~, that specifically binds to EGFR.
2. (canceled)
3. (Previously amended) A method according to claim 1 wherein the monoclonal antibody is chimerized or humanized.
- 4-23. (canceled)
24. (Currently amended) A method according to claim 1 wherein the monoclonal antibody or fragment thereof inhibits EGFR/HER- 1 phosphorylation.
- 25-30. (canceled)
31. (Currently amended) A method according to claim 1 wherein the biological molecule inhibitor is antibodies ~~are~~ administered before radiation.
32. (Currently amended) A method according to claim 1 wherein the biological molecule inhibitor is antibodies ~~are~~ administered during radiation.
33. (Currently amended) A method according to claim 1 wherein the biological molecule inhibitor is antibodies ~~are~~ administered after the radiation.
34. (Currently amended) A method according to claim 1 wherein the biological molecule inhibitor is antibodies ~~are~~ administered before and during radiation.

35. (Currently amended) A method according to claim 1 wherein the biological molecule inhibitor is ~~antibodies are~~ administered during and after radiation.

36. (Currently amended) A method according to claim 1 wherein the biological molecule inhibitor is ~~antibodies are~~ administered before and after radiation.

37. (Currently amended) A method according to claim 1 wherein the biological molecule inhibitor is ~~antibodies are~~ administered before, during and after radiation.

38. (Previously amended) A method according to claim 1 wherein the source of the radiation is external to the human patient.

39. (Previously amended) A method according to claim 1 wherein the source of radiation is internal to the human patient.

40. (Previously presented) A method according to claim 1 wherein the tumor is a tumor of the breast

41. (Previously presented) A method according to claim 1 wherein the tumor is a tumor of the lung.

42. (Previously presented) A method according to claim 1 wherein the tumor is a tumor of the colon.

43. (Previously presented) A method according to claim 1 wherein the tumor is a tumor of the kidney.

44. (Previously presented) A method according to claim 1 wherein the tumor is a tumor of the bladder.

45. (Previously presented) A method according to claim 1 wherein the tumor is a tumor of the head and neck.

46. (Previously presented) A method according to claim 1 wherein the tumor is a tumor of the ovary.

47. (Previously presented) A method according to claim 1 wherein the tumor is a tumor of the prostate.

48. (Previously presented) A method according to claim 1 wherein the tumor is a tumor of the brain.
